Chevrolet's Smart New 'Face'

Marked changes from previous years give the 1952 Chevrolets a freshness that assures their continued popularity in the low-price automotive field. Apparent in this front-end view is the redesigned grille which features five distinctive "air foil" fins mounted on the center bar. Parking lamps have been broadened to eliminate the former slotted grillework and the hood emblem carries the name, Chevrolet.

News Notes From State Capital

TALLAHASSEE — Leading off the list of big name candidates for state office this week are Thomas D. Bailey, seeking re-election as state school superintendent, Ed Larson, qualifying for re-election as state treasurer; Richard W. Ervin, qualifying for re-election as attorney general. Secretary of State R. A. Gray and Agricultural Commissioner Nathan Mayo already had tossed their hats back into the ring. Governor Fuller Warren is prevented by the constitution from succeeding himself.

TALLAHASSEE — The State Livestock Sanitary Board is moving to end unsanitary meat killing and processing, under a 1951 law which took effect January 1. State Veterinarian J. V. Knapp said complete state inspection of all meat will be accomplished as fast as the board can get qualified inspectors. They hope to end practices such as slaughter houses accepting dead animals for processing, mixing sausage by hand and in the same room where chickens

are being plucked. Sanitary controls are badly needed in Florida, he concluded.

TALLAHASSEE — Housing needs of eight men's fraternities at Florida State University have been met with new houses, built by the state and leased to the groups. They actually are small dormitories, are equipped and maintained by the university, and will be used by summer school students when the regular terms end. The fraternity members pay enough rent to retire the debt and meet maintenance costs. Phi Delta Theta, Theta Chi and Phi Pappa Tau have moved in, Alpha Tau Omega, Sigma Alpha Epsilon and Keppa Alpha are moving this week, and Delta Tau Delta and Lambda Chi Alpha will get their houses later this month.

TALLAHASSEE — T. C. Merchant Jr., Madison newspaper publisher and veteran legislator, has announced for re-election in the May primaries. It appeared in a

modest ad on the back page of his paper, the Enterprise-Recorder. Richard H. Simpson of Jefferson county, former speaker and long-time member of the house, has announced he will not run again. John Ward Henderson of Leon county will not offer for re-election, but the other member, Davis Atkinson, has announced he will qualify. B. G. Patton of Franklin county is a candidate for re-election to the house, and State Senator Luther Tucker of Crawfordville, will be re-elected to the upper house. S. Travis Phillips of Hernando, one of the leaders in recent successful legislative fights to improve the price of citrus, will ask re-election. George C. Tapper, Gulf county representative, has announced for the state senate to succeed Olin G. Shivers of Chipley, who will retire from the senate this year. Woodrow Melvin of Santa Rosa county, another stalwart of the lower house, is asking election to the senate from the first district. Johnnie Wright of DeFuniak Springs and House Member Tom Beasley will fight it out for the third district senate seat.

TALLAHASSEE — Secretary of State R. A. Gray said he will comply with state democratic committee demands that candidates for appointment to "little cabinet" positions be put on the ballot. But Attorney General Richard W. Ervin said, if he is asked for his opinion, he believes so much "doubt and confusion" have been raised by the committee action that he will suggest court clarification. The committee at St. Petersburg voted to put all appointive positions on the ballot, for the "guidance" of the next governor. State officials here see this as an impossible assignment, because of the numbers involved and the varying terms of office.

TALLAHASSEE — Governor Warren has increased from \$2,500

to \$5,000 the reward for conviction of the terrorists who bombed the residence of a Mims negro and his wife, killing both. He told a group of spokesmen for various groups that an explosive expert from the Third Army has arrived to continue the investigation, and promised the electric chair for anyone convicted of the murders without recommendation for mercy.

Following the luncheon Gardenia Circle members will go to the County Park in Canal Point to

plant a flowering tree on the park grounds.

Mrs. Rosenberg was authorized to purchase a book for the Garden Center library.

Mrs. A. R. Chastain spoke on "Roadside Beautification." Mrs. J. H. Bordeaux gave a reading on birds. Mrs. A. L. Pope was in charge of the plant exchange and Mrs. Sims, the plant identification.

It was announced the February meeting of the circle will be held at the home of Mrs. E. W. Brandes, with her daughter, Ann assisting as co-hostess.

Holiday Magazine Lauds Gold Coast

MIAMI—Holiday Magazine, in the January issue, salutes South Florida with eighteen pages of photographs and description in a feature article entitled, "Florida's Gold Coast," by Budd Schulberg. From Miami Beach to tranquil Hobe Sound, is described in glowing terms by Arthur Schulberg in which he calls the southeastern coast "a fabulous American Riviera." Convinced that only a God-given climate plus man-driven enterprise could have developed this short stretch of coastline in a handful of decades, Schulberg takes his reader on a vivid, breath-taking tour up the coast from Miami Beach to Hollywood-by-the-Sea, Boca Raton, Fort Lauderdale, Palm Beach and Hobe Sound.

IN JUST FIVE years in Florida, the number of telephones you can call has more than doubled.

BEST OF ALL, the price of this bigger, better "package" of service has gone up on the average far less than prices in general . . . and less than our cost of providing the service.

ALWAYS a bargain, telephone service is today an even better buy than it was ten years ago, and a smaller part of the family budget.

Cinematic Chatter

By Malcolm Miller

It is reported Ida Lupino, who is quite a wit, despite the fact that she is one of the greatest dramatic stars in the films, has been having a great deal of fun with her chums by telling them her new production will have no budget problems and only one star! Of course she is referring to the "Blessed Event" and her husband Howard Duff are in a dither about. Jane Wyman, who has finished a movie stint with Bing Crosby and Ethel Barrymore, is having a whirl in New York. She states she is just gadding about, "doing the five and dimes", a few night clubs, some productions, and getting a good rest. You know, that's how show people get their rest. Like the postman they take their holidays seeing other artists work. It seems to relax them. Alexis Smith, who took off for Mexico right after she completed "This is Dynamite", with William Holden as her co-star, returned to Hollywood vowing she is going right back as soon as she finishes her next picture. She must go for that Mexican food, soft singing and cactus infested deserts. It seems they kept her busy in Mexico City, so she missed Acapulco, Taxco, Cuernavaca and a few other high spots, these she wants to see. I don't blame her as they are surely garden spots one never forgets once they have enjoyed their hospitality. See you at the movies—Mal.

Due to recently enacted federal gasoline and automotive tax increases, the average Florida vehicle owner will pay \$116.10 in special taxes in 1952, Glen P. Woodward, Jr., Exec. Secretary of the Florida Petroleum Industries Committee, recently predicted.

The two-month-old Minute Maid Corporation's grower-participation plan has provided virtually all early and mid-season fruit required for full-scale operation.

Hialeah Race Course recorded the biggest crowd of sight-seers in its history when an estimated 4,000 Christmas Day visitors mailed 8,000 on-the-scene postcards.

"We did it Again!"

That's the jubilant news that comes from Flint to every Buick dealer—and here we pass the thrilling story on to you. It sure is true for '52 that better automobiles are being built — and Buick is building them. Read the good word and you'll agree.

LET'S pare this down to plain statements of fact and let them speak for themselves:

The dynamic darling pictured here is the 1952 ROADMASTER.

It has the mightiest engine in Buick history.

It has the biggest brakes of any postwar Buick.

It is the quietest car that Buick ever built.

It has the richest fabrics and smartest tailoring that ever graced a Buick's interior.

It has the greatest trunk space since spare tires moved off the front fenders.

It has the most superb ride in Buick history.

It has the finest carburetor that Buick research has ever devised.

And with all its new power, it delivers more miles per gallon.

But that is not all.

For those who wish it, there is a brand-new version of power steering that works like a helping hand—gives you the same sure feel of control you have always known in straight-away driving—yet takes less than one-fifth the effort needed to turn the ordinary wheel standing at curbside.

Sure, we're putting our best foot forward when we talk about ROADMASTER.

But you'll find a host of notable features in SUPERS and SPECIALS too—plenty to make them, as always, the standout buys in their fields—for ride, for comfort, for style, for room, and for power.

Come in—look this triumphant trio over—and you'll know why every Buick dealer from coast to coast is going around with a smile on his face.

Equipment, accessories, trim and models are subject to change without notice.

Christian Science Group Of Canal Point

That eternal Life will be increasingly evident not as a result of death, but through the understanding of God as the only Life, is the topic of Christian Science services to be held next Sunday. The subject of the Lesson-Sermon is "LIFE."

The Golden Text is from Proverbs (16: 22): "Understanding is a wellspring of life unto him that hath it."

Selections from the Bible include the following verse from Proverbs (4: 13): "Take fast hold of instruction; let her not go: keep her; for she is thy life."

Correlative citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "Death will occur on the next plane of existence as on this, until the spiritual understanding of Life is reached . . . The true idea of God gives the true under-

standing of Life and Love, robs the grave of victory, takes away all sin and the delusion that there are other minds, and destroys (pp. 77, 323).
